FEATURED WORK

L'Outhé

Commerce platform · Next.js, Flutter, Stripe

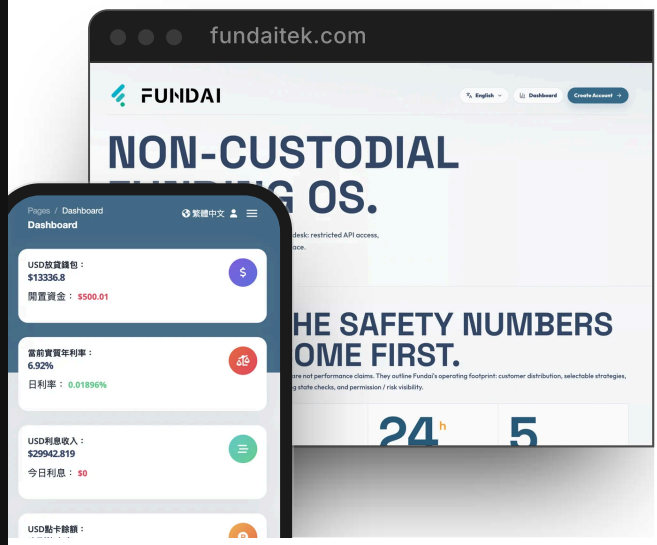

Public shop, sales CRM, admin dashboard and three Flutter apps, all in one Turborepo monorepo. Live at leouthe.eu.

Fundai

Fintech automation · Python, FastAPI

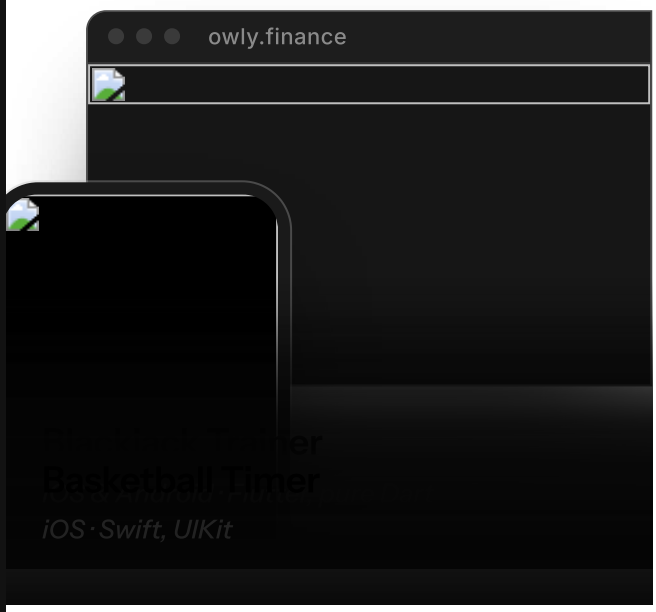

Automates Bitfinex USD lending for customers whose assets never leave the exchange. Running since 2022.

Owly

Platform rebuild · Next.js, Expo, BNB Chain

Fundai rebuilt from the contract up: web and mobile share one generated API, with on-chain forwarders verified on BscScan.

Basketball Timer

iOS · Swift, UIKit

StockCalendar
TaskQuadrant

iOS & Android · Flutter

SEF & SIGA Watchers

Automation · Python, Selenium, Telegram

Alert service run with immigration consultants and relocation partners: bots watch the Portuguese immigration (SEF/AIMA) and SIGA booking sites and push open appointment slots to Telegram the moment they appear.
